

# Report Navigator

## Features

The Harris/MSI Report Navigator utilizes Crystal Reports, the premiere world standard reporting solution, to produce highly formatted, professional reports. Standard pre-designed report templates can be easily modified to fit your unique reporting needs. Share your reports in a variety of formats, and run them at specified intervals with the optional Report Scheduler. Powerful drill down capabilities allow easy access to valuable information.

- Includes pre-designed report templates for each Harris/MSI module
- Provides the ability to customize your standard report library utilizing Crystal Reports
- Provides unlimited user defined filtering of reports at runtime
- Provides the ability to view a history of all generated reports
- Provides the ability to share customized report templates across your organization
- Provides highly formatted, professional looking reports
- Autorun reports at specified dates and times utilizing the optional Report Scheduler
