

MSI-Resident Account Tracking System

An MSI-Cash Register Subsystem

Features

Features of the MSI-Resident Account Tracking System (RATS) Include:

- Provides users with single point access to all resident receivables across all modules
- MSI-Cash Register Module and MSI-Parcel File interface is required for implementation
- Allows drill down to underlying modules for detailed receivables research

The screenshot displays the 'CR Entry' window with a green background. The interface includes a menu bar (File, Help), a toolbar with various icons, and several data entry sections. A red arrow points to the 'Reference #' field in the 'Detail' section, which contains the value '20041487'. Another red arrow points to a circular icon with a magnifying glass and a document symbol, located in the bottom right corner of the main data entry area. A text box on the right side of the image explains the function of this icon.
